

AirBlock Expandable Filler Panels:

- Fill gaps from missing racks in the data center
- Five sizes cover from 6.5" to 56"
- Installed with magnetic seals. No drilling or mechanical fasteners needed.

Use AirBlock EFP (expandable filler panels) to increase the efficiency of your data center cooling and give you added capacity in the data center.

The panels are designed for quick installation to fill in for missing or removed racks in the data center. They can be used as a temporary solution, or on a long-term basis. Panels can also be used to fill in space between racks and power units, building support columns or other equipment in the data center.

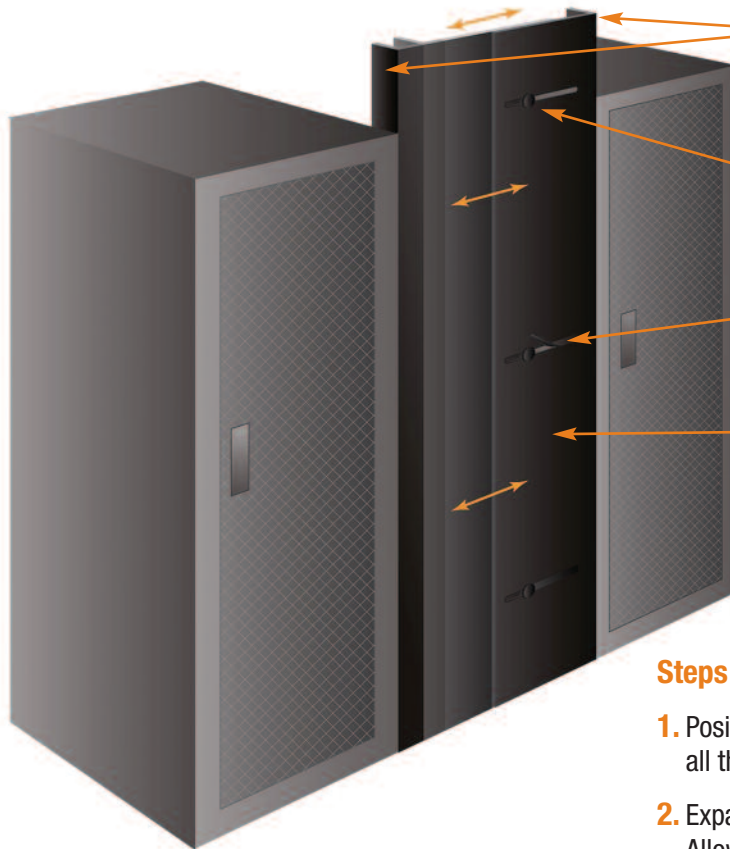

EFP Panels are made from durable 1/8" thick, aluminum-skinned composite materials that are Class 1 fire-rated.

Panels are pre-slotted for easy telescoping adjustment. Flexible vinyl seal strips close off any air gaps in the adjustment slots.

EFP Panels from AirBlock – The Simplex Solution

Two-inch, continuous magnetic strip runs the length of each side; holds fast to computer racks.*

Easy adjustment of knobs made possible with flange nut locking hardware.

Flexible vinyl seal strips close off air gaps in the adjustment slots.

Panels of aluminum-skinned composite are Class 1 fire rated.

Steps to Easy Installation

1. Position panel between racks. Loosen all three knobs.
2. Expand panels to cover entire opening. Allow magnetic strip to catch hold.
3. Adjust knobs by pulling and turning until tight.
4. Insert vinyl seals as needed in exposed slots. Trim to size with scissors.

EFP Panels increase energy efficiency by allowing data center managers to quickly seal off spaces created by removing racks, as well as spaces between racks and support columns or other equipment.

Additional features and options of the Expandable Filler Panels include:

- Stock panels are available in five different adjustable widths, from 6.5 inches to 56 inches.
- Individual panels can be joined together to fit larger gaps.
- Standard height is 84 inches. Custom heights are available.
- Stock color is semi-gloss black.
- * • Mounting options include Velcro or two-sided adhesive tape in lieu of the magnetic strip.

Panel choices include:

| Model | Width |
|-----------------|--------------------------|
| EFP-0610 | 6.5", expandable to 10" |
| EFP-1016 | 10.5", expandable to 16" |
| EFT-1424 | 14.5", expandable to 24" |
| EFP-2240 | 22.5", expandable to 40" |
| EFP-3056 | 30.5" expandable to 56" |
